The opinions expressed in
this column are the personal
views of the writer and do
not necessarily reflect those
of the management; in fact,
many times they do not.

NOT SO MODERN

The deeper we dig into the past
the more it becomes evident that
many of the things which we con-
sider the last word in modernity
were common and in vogue sev-
eral thousand years ago.

Archaeologists in their explora-
tions have uncovered proofs of an-
cient civilizations which were more
advanced in many ways than our
own, thus tending to prove the truth
of the saying that "there is nothing
new under the sun."

While not advancing the fact as
a sign of progress, we know that
the ladies of those days of antiquity
were thoroughly conversant with
the use and the alluring effects of
cosmetics and did some plain and
fancy face powdering and painting
for their little lords.

INTEREST WAS HIGH

We are wont to think that the
systems of finance in those days
were archaic, but we are informed
through recent discoveries that
bankers 2500 years ago were lend-
ing money at 20 per cent interest
and selling choice shares in Temple
incomes.

ANNUITIES KNOWN

Texts from thousands of ancient
Assyrian and Babylonian clay tab-
les pieced together by Dr. Waldo
H. Dillenstein of the University of
Chicago show "modern" methods of
business and finance in the Tigris-
Euphrates valley.

If a wealthy father wanted to
leave a valuable legacy to a son or
daughter he merely bought an in-
terest-bearing note or a share in
the income of a popular temple
from one of the few banking fam-
ilies which controlled financial op-
erations.

A successful business man could
provide for his old age by an an-
nuity arrangement similar to those
offered today.

Richmond Boy Badly Injured In Car Accident

Injured when he ran into the side
of an automobile, William Zarzi,
of 396, Tweedbury avenue, was un-
der observation at a local hospital
last evening for a possible fractured
skull.

The child sustained a bad cut on
his forehead. He was given treat-
ment by Dr. W. S. Lucas.

According to police reports, the
child was playing on the sidewalk
on Standard avenue near Contra
Costa avenue when he suddenly
leaped out upon the street and ran
into the side of a machine driven
by Richard Brunjes, Jr., of 2625
Tulare street, El Cerrito.

Brunjes took the injured boy to
Dr. Lucas' office and later to the
hospital.

Young Actor's Mother Sought By N. Y. Police

NEW YORK, April 10.—UP—Po-
lice were asked tonight to broad-
cast an alarm for Mrs. Lillian Mae
Bartholomew, mother of Freddie
Bartholomew, boy film star. Her
husband, in London, has not heard
from her and he feared she had
been kidnapped or that "something
serious" had happened to her.

The plea for police aid was made
by Philip A. Levey, New York rep-
resentative of London attorneys re-
tained by Cecil Bartholomew, the
missing woman's husband and father
of Freddie.

"I fear that something serious
may have happened to her since
her English attorneys had explic-
itly instructed her not to see anyone
or to do anything until she met me
in New York," Levey said.

W. T. HELMS, superintendent of
schools and secretary of the Rich-
mond Rotary Club has been notified
that he has been named conference
secretary of the coming Rotary con-
vention at Berkeley.

NUDE BODY DISCOVERED IN BATHTUB

NEW YORK, April 10.—UP—
The body of Mrs. Nancy Titterton, 34, a beautiful, red-
haired writer, was found today
in a bathtub of her home on the
exclusive upper East Side. She
had been strangled with the
coat of her own pink pajamas
and police said there was little
doubt she had been attacked.

All her clothing had been re-
moved.

WROTE FOR MAGAZINE

Police said a preliminary exam-
ination indicated she had been
strangled. An official verdict was
withheld for the time being.

Titterton was notified at his of-
fice. He said he had not seen his
wife since he left home this morn-
ing.

Mrs. Titterton was a frequent con-
tributor to magazines and book re-
views.

Mrs. Titterton spent her child-
hood in Dayton, O., and came to
New York in 1925. She had been
working on a novel and one of her
short stories, "I Shall Reelie My
Head," appeared in the magazine

Installation Will Be Held By Union Here

Officers will be installed Monday
at 2 o'clock at 615 Macdonald
avenue by the Barenders and Culinary
Workers Union.

Hugo Ernst of San Francisco,
third international vice-president,
has been asked to act as installing
officer.

The new officers are: Todd Or-
den, president; Maurice Church,
first vice president; Mildred Thayer,
second vice; Frank Smith, in-
spector; Gus Tarroff, inside guard;

Pearl Arnold, Vivian Nyquist Louise
Gough, trustees; James McAllister,
chaplain; Oscar Adams, A. Bade,
William Casazza, Elsie Kebien, Jo-
quin Gonzalez, Leslie Marcos and
Della Ventura, members of execu-
tive board.

Boyer denied the crime. He ad-
mitted, however, that he had served
19 months in Washington, D. C.,
for robbery.

Sandford's body was found near
Oak Grove, Mo., today with three
bullet wounds in the head. His au-
tomobile and two suit were miss-
ing. He disappeared last night short-
ly after attending a meeting of
Wyandotte, Kan., reserve army of-
ficers.

Under questioning by Chief of
Police John Carroll, Boyer, alias
Richard Logan, said he met a man
who represented himself as Sand-
ford in a Kansas City tavern last
night, and that the man invited him
to drive to St. Louis.

Of exemplary habits, Sandford
had no enemies. The police theory
was that he had been kidnapped for
his automobile by highwaymen.

Food, clothing, and baby layettes
will be issued to employees where
the security wage is too small to
support them, Koeltz said. Those
qualified to receive surplus food
and other aid include those whose
security wage is less than their re-
lief under the SERRA; those ill or
injured; to members of families
which are separated but in which
only one member is employed, and
in general emergencies where the
worker shows that his income is in-
sufficient, according to the an-
nouncement.

Application for the aid under this
rule, Koeltz said, must be made to
the Department of Adjustment
at 457 12th Street.

F. D. R. TAX BILL GETS HOUSE CUT

WASHINGTON, April 10.—
UP—Heeding stern warnings
from business and financial lead-
ers, Congressional tax experts
tonight agreed to soften the
blow of the Administration's
new revenue bill on corporations
in debt.

At the same time, the House
ways and means sub-committee
drafting the tax measure voted to
place "foreign bank," insurance
companies and trust units operat-
ing in America in the same cate-
gory as similar domestic units and
tax their net income 15 per cent
instead of the proposed 22 1-3 per
cent.

ABANDON TAX PLAN

Chairman Samuel E. Hill, Demo-
crat Washington, of the sub-com-
mittee said his group virtually had
abandoned plans of taxing a tax
of 22 1-3 per cent on dividends that
go ahead to non-allies from for-
eign corporations operating in the
United States.

Foreign corporations in receiver-
ship in American courts also are to
be given special consideration.
They will be subjected to the 15 per
cent tax imposed on American cor-
porations in receivership, Hill

Delegates To Sacramento Are Named By PWUU

Three delegates to attend the an-
ti-criminal syndicalism meeting at
Sacramento on April 19 were elect-
ed last evening when the Public
Works Unemployed Union held its
meeting at W. O. W. hall. They are
C. M. Hesser, B. J. Reid and Scott
Sprecker.

A revised set of by-laws will be
presented at the next meeting of
the group to be read and approved
by the membership.

Plans have been made to have
the last meeting night of each
month an open meeting.

Reports were heard from the Mar-
tinez union. It was stated that 28
men on a project near Martinez
went on strike when they were or-
dered transferred to an Antioch
project and no provision was made
to pay their transportation. After
a committee of the strikers met
with the WPA officials, the Anti-
och project was abandoned and the
men were sent to the Mare Island
project.

Scott Sprecker presided last even-
ing in the absence of Arthur Love,
the president.

Calles Lands In U. S. After Mexico Ouster

BROWNSVILLE, Texas, April 10.—UP—Plutarco Elias
Calles, former president and
"strong man" of Mexico, arriv-
ed here by plane today after
being exiled from his native
land on charges of fomenting
revolution.

He was a haggard, weary man,
but he stoutly denied having any
connection with the violence which
led to his being ousted out of
Mexico.

IS CONFUSED

Calles still was confused by the
abrupt action taken by the Car-
denas regime, which had him routed
out of bed and hustled into a
plane bound for the border.

He said officers told him the
specific charges against him were
that he was one of the persons sus-
pected of bombing a train between
Mexico City and Vera Cruz last
week. In addition, he was accused
of "being at the bottom of recent
murders, particularly that of Nuevo
Laredo."

Bombs Kill One; Peril Many Lives

WILKESBARRE, Pa., April 10.—
UP—Bombs exploded as boxes of
clothes and mailed at the postoffice
here, blew one man to bits today
and wounded four other persons se-
riously.

Six bombs had been accounted
for late today. Two exploded in the
hands of persons to whom they
were mailed. Four were found by
postoffice inspectors before the
package of death were opened.

Authorities said the bombs were
made and mailed by a mailer, prob-
ably an insane man who was ac-
cused to handling explosives. All
recipients of the bombs, except
one, were involved in the strike of
United Miners of Pennsylvania two
years ago.

Fire, which police believed was
started by the person responsible
for the bombs, did small damage to-
night in the first floor of the rec-
tory of St. Mary's church which is
the home of Monsignor J. J. Curran,
nationally known mediator in mine
disputes.

Rancho Voters Are Challenged

MARTINEZ, April 10.—Deputy
District Attorney Rex Boyer today
announced he would cite 26 per-
sons who registered as residing at
the Rancho San Pablo, in El Cer-
rito, to appear in Richmond Mon-
day to show cause why they should
not be restrained from voting.

Complaint that the 26 were not
bonafide residents of El Cerrito
was made to Boyer by S. C. Mathis-
son, candidate for city clerk in the
Tuesday election. W. D. Stark, C.
Kaufman and Miss L. A. McNab,
candidates for the City Council.

W. M. Peachart, owner of the
Rancho, said all those registered
from the Rancho actually resided
at the establishment and were bona-
fide voters. The 26, Peachart said,
are employees of the Rancho, on
a fulltime basis.

El Cerrito goes to the polls Tues-
day to elect three councilmen, a
city clerk and a city treasurer from
a list of 19 candidates.

MISS VIVIAN VAUGHAN is a

REDS SCORED FOR TROUBLE ALONG COAST

SAN FRANCISCO, April 10.—
UP—The American Merchant
Marine, for years engaged in a
bitter struggle for existence,
careened uncertainly toward a
new crisis on the Pacific Coast
tonight, with employers, work-
ers and unions locked in desper-
ate controversy.

Charges of the gravest crimes—
murder, mutiny, sabotage, insub-
ordination and sheer anarchy—
were in the balance on the employ-
ers' side.

VIOLENT ACCUSATIONS

Fiercy union leaders replied with
equally violent accusations. They
insisted that ships are sent to sea
with no regard to safety or work-
ing conditions, that grinding la-
bor is the rule on the waterfront
or aboard ships that owners have
tried to smash all maritime uni-
ons.

Tonight a new development prom-
ised action in the issue. Attorney
John L. McNab, counsel for Ivan
Hunter, secretary-treasurer of the
International Seamen's union, for-
mally requested M. Q. Brington,
foreman of the San Francisco grand
jury, to undertake a thorough in-
vestigation of waterfront affairs.

and had lived in this city for the
past 22 years. Her home was at

Locarno Powers Will Continue Peace Efforts

GENEVA, April 10.—UP—Lo-
carno powers minus Germany, to-
night authorized British Foreign
Secretary Anthony Eden to contin-
ue negotiations with the Nazis
state in an effort to solve the Rhine
land crisis and consolidate European
peace.

The Locarno conference, among
Britain, France, Belgium and Italy,
then adjourned until mid-May, af-
ter the French general election.

Tonight's action represented a
significant diplomatic victory for
Britain over France. Eden deman-
ded that negotiations with Germany
must continue, despite French ob-
jections that Hitler's reply to the
Locarno powers closed the door to
further negotiations.

U. S. Consulate At Santiago Bombed

SANTIAGO, Chile, April 10.—UP—

ploded at the Nova Scotia branch

Top Row Favored To
Win Handicap Today

(By ROGER JOHNSON)

United Press Staff Correspondent
TANFORAN TRACK, San Bruno, April 10—UP—The cream of Pacific Coast trained thoroughbreds will line up at the post here tomorrow charged with the herculean task of matching the blue ribbon pace of Top Row, Santa Anita handicap winner.

The event will be the Marchbank handicap, with a \$10,000 purse to the winner. It will be run over a mile and one eighth stretch. Its finish will mark the end of Tanforan's most successful 25-day meeting.

With sunny skies promising ideal racing conditions on the smooth track, practical turfmen agreed virtually unanimously that A. A. Baron's sleek speedster will add the west coast's second-ranking handicap championship to his laurels.

Top Row remained heavy favorite in spite of recent stellar performances of Indian Broom whose sensational rise has marked him for possible entrance in the Kentucky Derby.

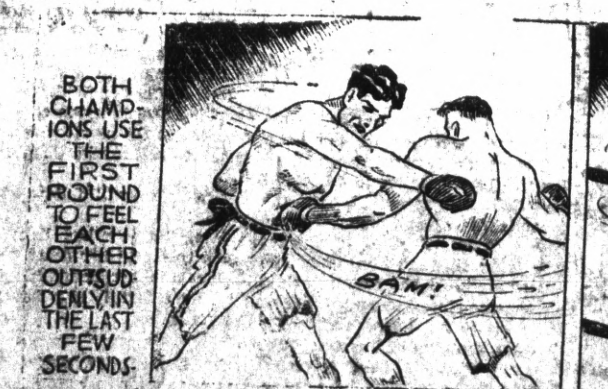

Indian Broom exhibited a sensational "rags to riches" career last Saturday when he romped home in near-record time ahead of a fast field to win the semi-windup Pontasula handicap.

Besides Indian Broom, prospective mutual ticket holders cannot conscientiously disregard Azucar, Fred Alga vs 1935 Santa Anita winner. Azucar is truly the dark horse in tomorrow's affair because of his consistency, which in one race will tab him as one of the nation's best handicap runners, and in the next will label him as only a so-so performer.

Of the seven entries, he is the stand-out outsider with a chance to surprise. His principal claim to fame is a double victory over Discovery, before Discovery hit the down grade.

Aron, owned by Tom Douley of Hollywood, tops the list of lower strata horses in the handicap. Although she has returned to the Thursday, but probably outclassed

SACS BEATEN
BY BIG SCORE
AS OAKS WIN

By UNITED PRESS

The Seattle Indians came in with their fifth straight victory Friday and practically blew the luckless Sacramento "chain gang" club into the Coast League cellar on a permanent basis. The Indians won the game, 20 to 3.

Dire warning of W. C. Tuttle, Coast League president, that the Senators as operated by Branch Rickey and the St. Louis Cardinals were in for a quick set down during the regular season apparently were on their way to complete fulfillment. In eleven starts the Senators have won two games.

Friday's fiasco was their worst, by far. Six pitchers faced the Seattle batters—Ward, Belcher, Ehlers, Olson, Dunnigan and Alvernez. They allowed 16 hits. Four Sacramento errors aided the Indians.

Oakland held its slim half game lead over the Dutch Reuther squad by virtue of a hectic 5-4 win over Portland. In the fifth inning Pitcher Carson asserted tried to "bean ball" Leroy Anton. Anton bunted and Carson fielded the ball; Carson tagged him out and then gave Anton a healthy shove. Players of both teams immediately ran out and joined a general brawl. Bad blood built up in Oakland's two previous wins to the Beavers' one was responsible for the out-break. No players were banned for the demonstration.

San Francisco picked up its third win in four starts from San Diego 6-3.

In a night game, clouting 18 hits, the Los Angeles Angels fended the Missions a 16 to 3 lacing the worst setback Willie Kamm's Reds have suffered this season.

The line score:

Seattle	R H E
Indians	20 16 0
Sacramento	3 6 4
Missions	3 7 4
Kinnball & Veltman; Johnson, Gallison, Stitzel & Sprinz.	

In this field, RED ENSIGN, Owner Major Austin Taylor, Vancouver, Jockey unassigned, No. 4 post, Weight 97. Probably hasn't the speed or stamina to make him a real contender.

Tommy Luther, riding Azucar, and Wayne Wright, astride Top Row, will continue their rivalry which blazed into intensity at Santa Anita when they were principals in the famous "jam" in the stretch.

Following are statistics: TOP ROW, the favorite, Owned by A. A. Baron, Reno, Jockey Wayne Wright, No. 1 post, Weight 118. Rated the nation's best handicap horse after Santa Anita victory with Wright, the country's leading jockey in the saddle.

AZUCAR, Owner, Fred M. Alger, Jr., Detroit, Jockey Tommy Luther, No. 7 post, Weight 124. Condition excellent and will be a definite threat if he duplicates his 1935 Santa Anita performance.

INDIAN BROOM, Owner, Major Austin Taylor, Vancouver, Jockey B. James, No. 5 post, Weight 94. Cleverly trained, Indian Broom was purchased for \$5000 two months ago and has paid for himself in two races.

THURSDAY, Owner R. A. Moore, Mechanicsville, Jockey Louis Belaski, No. 6 post, Weight 109. Samped as a great racehorse because he beat Discovery twice, Thursday is the question mark of the race. There is no recent dependable check because he has sulked in workouts.

ARSON, Owner, Tom Donley, Hollywood, Jockey A. Gray, No. 2 post, Weight 100. A definite outsider although she has turned in some good times this spring which approach her last year's races.

JOVITS, Owner L. T. Whitehill, San Diego, Jockey Rose Helms, No. 3 post, Weight 104. Potentially a strata horse. Ran a mile in 1:38.2 though she has returned to the Thursday, but probably outclassed

POSSIBLY that is what Philip K. Wrigley, right, owner of the Chicago Cubs, is asking Manager Charlie Grimm as they look over last year's pennant winners before starting the season.

Gold Cache Is

"Rush" Started

NAPA, April 10—UP—Gold fever struck the residents of the Veterans State home today, and sent them into the lawn and flower beds with shovels and trowels.

I started when two veterans uncovered a cache of gold coins in five, 10 and 20 dollar denominations. Like most of the secrets of successful prospectors, the story got around and within an hour the yard was swarming with amateur "miners."

No fact, the cache amounted \$165. It was buried the coins were buried by a former inmate for safe-keeping.

Students' Epworth
League Is Planned

About 50 high school age young people have been invited to join in the organization of a High School Epworth League at Wesley Church on Easter Sunday evening at 6:30 o'clock.

Mrs. E. E. Lyder, an outstanding worker among young people, who recently came to Richmond from El Segundo, where she had worked with great success among the young people of that city, is to be the counsellor and will be present to organize the group. Any young person of high school age or in the last term of the Junior High, whether having received an invitation or not will be most heartily welcome, and is invited to become a charter member of this League.

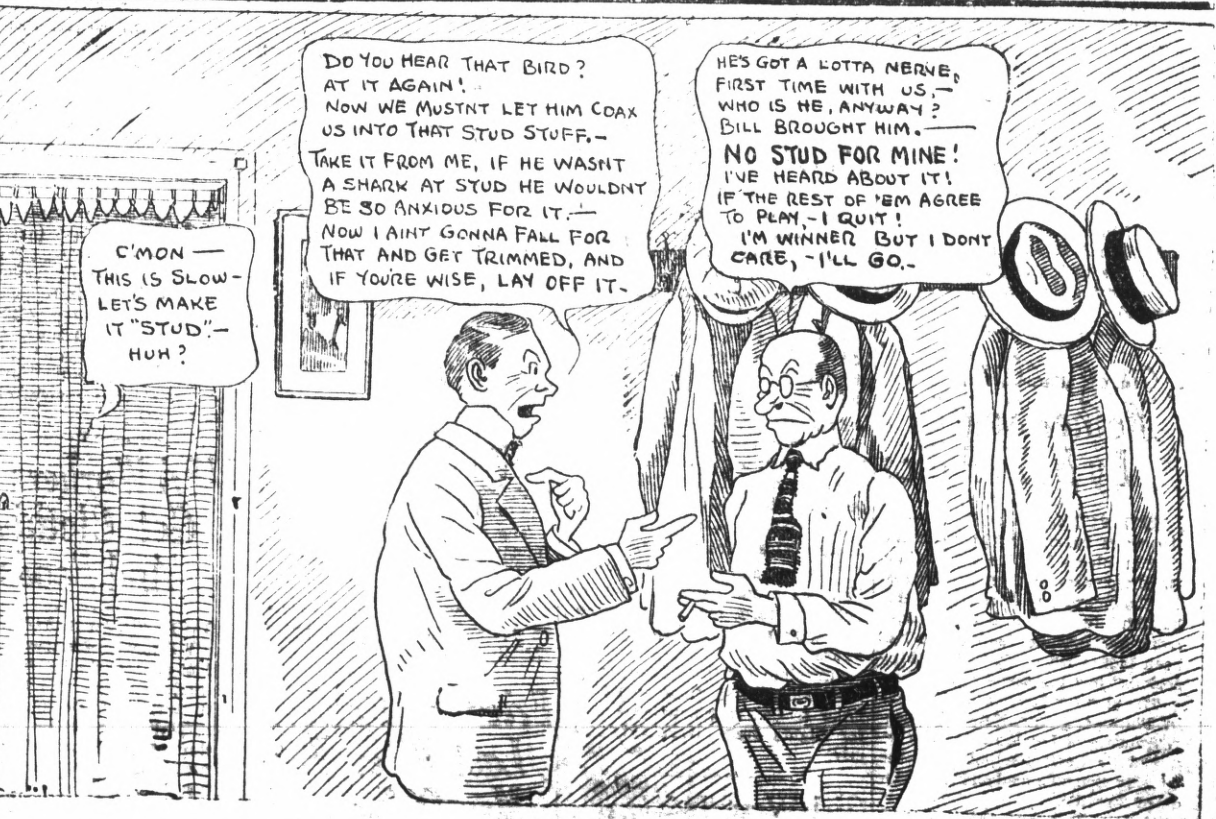

This young people's group should become one of the most outstanding in the East Bay, under the leadership of Mrs. Lyder.

University of California will decide upon the request at their next meeting, which will be in Los Angeles, April 17.

INCREASE in New Deal Jobholders.. AND THEIR COST TO TAXPAYERS

INCREASE FOR PERIOD
252,000 Jobholders - \$590,000,000 Payroll

THIS DATA is from official Civil Service reports. It does not contain hidden Government employees, possibly 300 thousand or more, nor their cost of a possible 300 million dollars or more. Hidden payroll additions include foreman, assistant foreman and "straw bosses" charged to WPA projects; HOLC, AAA, CCC and other alphabetical per diem workers. Senator Rush D. Holt, New Deal Senator from West Virginia, showed that in one district in his state, administrative employees and hidden employees were consuming more than one-third of the relief funds; and numbered more than one to each 12 relief workers, whom they supervised. He said in a speech on the Senate floor: "Approximately \$1,000,000 of the two and three-fourth million dollars are going to a few political henchmen instead of going to the people who need relief in that district."

GARDENS WILL GLOW

A barrowful of these marigolds is none too many for two Girl Scouts who want their gardens to glow with the new deep orange variety named Girl Scout Golden Ensign at the 23rd International Flower Show held in New York City last week.

Girl Scout Activities

Many troops have been celebrating this vacation week with camping and hikes. Troops 2 and 5 spent three days on Mt. Diablo, camping at Rock City. Troops 9, 10 and 4 had all-day meetings at Camp Bader, cooking lunch, following trails and studying nature. All Scouts are looking forward to the all-city rally at Bader on Saturday, April 25th, under the direction of Mrs. Robert Easton. Teams will be formed from all troops, and a series of games in various sports will be played throughout the day.

In the current issue of "The American Girl" the Girl Scout magazine, Miss Ellen Janet Fleming, has an interesting article on gardens.

"Gardens are an artistic and emotional affair at best. If you are an artist in search of color, or a poet in search of peace, if you want small growing things to cherish, now is the time to begin 'from the ground up.' She then goes on to tell how to make a successful garden.

We suggest that Girl Scouts read the article and then come to the Little House to put their ideas into practice in their troop gardens.

Girl Scouts in Richmond have been assisting the Red Cross in carrying on a home inspection campaign in an effort to reduce home accidents. We find that a similar campaign is being carried on in Washington, D. C. Mrs. B. D. Roberts, honorary president of the Girl Scouts, will have three Girl Scouts visit her home on April 12, to make a tour of the White House, checking

Adjournment Is Taken In Mooney Trial

SAN FRANCISCO, April 10—UP—Charles M. Fickert, left the witness stand in Tom Mooney's habeas corpus hearing today, granted a four-day respite from cross-examination through adjournment of proceedings.

Fickert, who has occupied the stand for eight days, continued to deny generally today that he had participated in a plot with industrial interests to "frame" Mooney and Warren K. Billings while acting as directing prosecutor in the bomb line outrage trial.

Mooney and Billings went back to the county jail, where they have been assigned cells pending completion of the hearings. John Flinerty, Mooney counsel, left for the East to attend to other legal matters, and also to attempt to "obtain sufficient money to carry on his voluntary counsel in this case."

YOUR GOOD HEALTH

Ill Person Cannot Afford to Avoid Own Physician

By CLAUD NORTH CHRISMAN, M.D.

IN ANSWERING questions and giving advice to persons who write for information a doctor is fearful that a wrong diagnosis may be suggested and unnecessary uneasiness caused. This column is not trying to encourage self diagnosis and treatment. The effort is to give a plain statement of what certain signs and symptoms mean and the general methods of treatment; so that you may not delay but visit a physician and receive a proper diagnosis and scientific treatment. I beg of you, do not say you cannot afford to go to a physician and ask for an examination and treatment. Do not tell him you have a cold or are not well. Tell him you want some medicine for it. Give him your history and your family history and let him do the talking. You will find that you have a kind and sympathetic listener who will weigh your problems and give you good advice. A case in point comes in a letter from Mrs. G. M. of California. She has dizzy spells. She has been reading of Jonathan Swift's mental deterioration.

DR. CHRISMAN

Case of Jonathan Swift

He was troubled with dizziness at the age of 23. As he grew older the attacks became more frequent and more serious and he eventually became insane. After reading of Swift's story and she asks, "Does dizziness invariably lead to obstruction of the brain cells?" There is one question I can answer quite positively, "No." Indeed rarely. Jonathan suffered from some brain or spinal trouble that caused his dizziness and that condition became worse and ended in insanity. Mrs. M. of California, who has dizziness and is evidently in good health, has dizziness attacks and thought the same thing might happen to her. She is a woman of 27, weighs 155 pounds, is five feet five inches tall, the mother of two fine healthy children, and evidently in good general health. She may be a little heavier than necessary, but not unduly so. A number of years before marriage and since, she has suffered irregular attacks of dizziness, irregular attacks of dizziness, irregular attacks of dizziness. They have not become more frequent or more severe and assume no regularity.

Her Symptoms

Her description is: "Suddenly a sensation of a rush of blood travels up my right arm and up over my head, ending in a dark dizziness and a useless, helpless feeling in my right arm." Here is a clear concise statement of her sensation. She does not say whether there is a moment of unconsciousness, or if she is talking, she will stop in the middle of a sentence and then proceed. Or sometimes she sits down suddenly. Her own physician can find out about these things. She asks if I think her condition is serious enough for her to consult a physician. Emphatically, if neglected, under certain circumstances her condition could become quite serious.

For sake of argument I am going to make a diagnosis of "Petit Mal." This is a disease that has been associated with epilepsy, but because some neglected cases of "Petit Mal" have developed epilepsy. For that reason I hesitate to make such a diagnosis without further proof, but whatever the trouble, now is the time to control it.

I think her attacks come on when she is overtired, worried or has some digestive disturbance. We know that these conditions occur when the system is alkaline and a diet which promotes acidity is helpful. There is usually some imbalance of the body chemistry. If she tells her physician this diagnosis, he will be sufficiently interested to prove me right or wrong. That is all I ask.

Dr. Chrisman invites inquiries and correspondence from readers. Address him in care of this newspaper.

Short Cuts

A garden should not be watered with a hose, as water should not be poured on. A mechanical sprinkler is better. The time to sprinkle a garden is in the early morning or at sundown.

To save steps, keep a spoon in the bathroom medicine cabinet. Or even better, invest in a set of measuring spoons. The latter is particularly convenient with children in the family, making possible accurate dosing of medicine. Often a quarter or half a teaspoon of medicine is prescribed.

Candellion and best trains are in a class with spinach and rate high in mineral salts and vitamins.

Profile For Today

Playwright Sherwood One of Tallest

By TALBOT LAKE

ROBERT EMMET SHERWOOD, playwright, whose "Petroleum" and "Idiot's Delight" have caused so much discussion, is one of the tallest authors in the world. I do not know exactly how many inches the man measures, but I do know that when he marched with some of the earliest troops to enter London in the World War he was singled out by the late King George and complimented.

Returning after his war service, Sherwood, on crutches due to a leg wound, entered New York magazine journalism by way of "Vanity Fair" and "Life." He became the editor of "Life" after the administration of Louis Evan Shipman. It was while he was editing "Life" that the young writer and editor turned out the play which started him on his road to a great success—"The Road to Rome." Sherwood is one of the few Americans who can claim membership in the famous British regiment, the Black Watch, which was a part of the Canadian Expeditionary Force. Harvard is Sherwood's college and New Rochelle, N. Y., can claim the author as its son. His average for stage successes is one of the highest among the younger American playwrights.

The New Calling

ARPLANE and through-train hostess is an occupation attracting the attention of more and more girls and young women. As long as the job of hostess or stewardess was limited to the air the field was rather restricted. Today, however, enough railroads in the South especially, are going in for hostesses to make it worth while for girls to study what it takes to make a success of one. Then there is the resort hotel hostess who keeps guests amused. That position is not new, but it is increasingly important.

Girls Need Program for Their Beauty

By JACQUELINE HUNT

EVERY girl has seven days a week in which to make herself charming. If she isn't satisfied with her face and figure she isn't using her time wisely. It is up to her to put herself on a schedule that insures attention to all of the big and little details of health and good grooming.

So here are suggestions for a new beauty program! If you have neglected yourself for some time, you had better get a new permanent. Restock your dressing table with new spring cosmetics. If your nails look like orphans, get a professional manicure, first asking the operator not to cut your cuticles but to work them back and shape them gently. Here is a sample schedule:

Monday
After a week-end of dates you may feel a little tired and let down. As a precaution, set your alarm clock for half an hour earlier. Kick back the covers and with your windows wide open, stretch as long as you can while lying in bed.

Breathe deeply until you feel wide awake, then get out of bed and standing erect, arms stretched out at the sides, bend first to the right and then to the left, touching the floor with your fingertips. Now kick with first one leg and then the other—as high as you can with the knee stiff. Repeat each exercise about ten times, then take a cool shower.

Keep the evening free from dates and plan a special facial treatment. Wash with bland soap and tepid water, rinse thoroughly and massage with a good softening cream or a special tissue cream if there are lines or sallowness. Leave the cream on for ten minutes, or while you have a quick warm bath, then wipe away the excess and pat your skin with ice skin tonic or astringent. Dip an eight by three inch piece of absorbent cotton into the cold skin tonic, press over the under cheek area and tie in place with a strip of gauze. Leave on for ten or fifteen minutes. Remove the strip and pat dry.

Most important of all, plan to retire early to catch up on sleep lost during the week and to restore your pep for the rest of the week.

Tuesday
In addition to your quick morning make-up routine and your regular evening cleansing, plan to give your hair some special attention. Brush it thoroughly, apply hair tonic and then warm oil. If you must go to business the next day, leave the oil on your hair for an hour, then shampoo and dry thoroughly with warm towels.

Set your waves in place, turn up the ends on little curlers if necessary and slip a little net behind your locks when you are ready to go to bed. In the morning, comb out the waves, brush the tangles over your finger to make them soft and natural looking and spray with brilliantine.

If you do not go to business, leave the oil on your hair overnight and shampoo in the morning. Or, better still, if you are planning to have a permanent, go to the beauty shop for your shampoo, then have your wave some time on Wednesday.

The program will be continued tomorrow.

Beauty Tips

QUESTION: "My son has a severe case of dandruff. He washes his hair once a week in the summer. Is this too often? Please tell us how to get rid of this condition."—Mrs. G. H.

Your son should shampoo at least once a week, preferably of tene, until the dandruff condition improves.

He should use a good tar soap shampoo preparation or tincture of green soap which is antiseptic and will help clear up the condition. In addition to this he should massage his scalp, brush and use a good hair tonic daily.

Combs and brushes should be washed in strong soapuds and rinsed in an antiseptic solution daily. Cleanse handbands frequently.

QUESTION: "I have little faint lines between my eyes and have been to an oculist and he says that my eyesight is good and I do not need glasses. Can I remove the lines?"—Olivia.

Frowns and faint lines are of course a matter of habit. Make a conscious effort to quit frowning and straining your eyes when you are talking to someone or thinking.

Have a facial and pack every two weeks and massage the lined areas with a rich cream every night. Little strips of gauze, dipped into eye white, pasted outward and upward over the lines and allowed to dry will help smooth out the lines.

Zest In Meals Too Often Overlooked By Housewives

By JUDITH WILSON

SEASONED travellers tell us that no nation under the sun takes as little pleasure in eating as does ours. The humblest peasant in other countries would scorn our everyday fare as lacking in the pleasure that makes eating a pleasure.

Some of us may try to blame this state of affairs on the depression, but it isn't all a matter of economics. It is lack of imagination. You can make a flank steak into a dish that is an epicurean delight. It all depends on the skill with which seasonings and spices are used to bring out the flavor.

Learn to use salt, pepper, cloves, nutmeg, mace and many other seasoning spices and herbs properly and see how interesting your meals become. A suggestion of spice will do wonderful things for the following:

Scrambled Eggs with Veal Kidneys Sauté
Fried Tomato Slices
Lettuce with Cream Dressing
Spicy Prune Cupcakes

Iced Tomato Juice
Curried Shrimp with Rice
Green Peas
Strawberry-Pineapple Cup
Crisp Cookies

Boiled Tongue: Add 1 tablespoon of cloves and whole peppers, 2 bay leaves and a small onion to the water in which you cook fresh or smoked beef tongue.

Sauerkraut: Add two or three whole red peppers to the water in which it is cooked—also some chunks of pork that are served with the meal or sliced and used cold.

Creamed cauliflower: Cook the cauliflower whole until just tender so it will keep its snowy whiteness. Drain and cover with a rich cream sauce. Sprinkle with grated nutmeg.

Farina Pudding: Cook with a small stick cinnamon. Serve with hot or cold lemon sauce.

Rice with Shrimp Curry

Sheer Vogue Predicted for The Summer

By IRENE VAIL

New York — Not content with taking man's shirts off their backs, women now have them monogrammed in the masculine tradition, which is by way of saying on the left sleeve or on the left breast pocket.

When there is such a pocket it carries a handkerchief, repeating the color note, and perhaps a watch bow variety.

A change pocket has been added to some coats and jackets. The importance of sheer fabrics is responsible for the vogue for "veiled" fashions, particularly those sheers of which lace and tulle are the leading interpreters. In evening fashions the full skirt is adopted wholeheartedly as the best expression of sheer texture, but this width of silhouette, gossamer as it is, becomes an aura that veils a sheath foundation. The result is the preservation of the sleek silhouette, softened by the cloud of lace or tulle that is the dress.

Veiling is used for the new even-wraps for summer. Long redingotes of mousseline or net, regarded as little more than a film when it comes to protection, are another means of accentuating the "veiled figure" silhouette.

It is inevitable that this same fashion will strike daytime fashions as summer comes around, when sheer fabrics are as much a force in daytime as they are in evening. It is expected that sheer coats and jackets will follow full silhouettes.

"Squaring the sleeves" is a French conceit in coats and caps and jackets. Vionnet is the chief advocate of this technique, going all the other many sponsors of the wide shoulder line one better. It was news enough when Vionnet went fancy in shoulders, but her square shoulders, as expressed in the envelope sleeve, are the most radical in the imports.

In Paris toques have met with signal success among smart women and the milliners are considering how they will use flowers for summer in order to give to this type hat a new feeling.

Advance hints have it that Reboux is planning to make large, straw capelines with flower crowns, a charming fashion. Here, milliners take one, or at the most two colors in a print, and repeat them in a crown of blossoms, which will not make the matching idea too obvious, and will link the hat to more than one frock.

Jobless Young Man Is Right to Postpone Marriage Plans

By MARIAN MAYS MARTIN

MUCH as I regret not being able to write personally to those who make the request I must again explain that it is impossible. It is therefore unnecessary to enclose stamped envelope or to ask for, or expect, a personal reply. I do wish, too, that those who write me would use one side of the paper only.

It should not be difficult to live up to such a simple rule, one which applies to all communications for publication.

When letters are of a "too personal" nature and identification would be embarrassing it is my policy in some ways to change them so that publication would cause no trouble to the writer.

Personal names and names of towns or cities are never used; nor is the identity of the writer ever disclosed.

While I am on the subject I might add that it is not possible to establish communication among the readers of this column and that opinions on subjects discussed are always welcome. Here is an interesting letter:

He Could Not Marry
"Dear Mrs. Martin: I would like to have your advice on this problem of mine. I've met this young fellow recently and we've been going together for about two months. Well, he said he didn't want to be serious—that is, to marry—because he did not have a good, steady job. Well, we were always quarreling over something, and we fought good one day. Whenever we were still talks to me, but I don't pay much attention."

"On my birthday he sent me a present. Now his birthday is coming. Do you think I should send him a present, or just forget him? I don't know what I should do. He's always had a lot of respect for me. Still, he doesn't want to marry. I wonder why? Troubled."

By all means send this level-headed young man a birthday card. He shows common sense in not wanting to marry until he has a steady job. You are to be congratulated on having attracted the attention of such a young man, and were I in your place would be friends with him and bide my time.

She had spoken before they had a chance to run away. Although frightened, the bunch followed her into the house. Without saying a word, mother brought out the cook jar and invited them to dig in.

A Great Responsibility
Girls do not seem to realize what a responsibility marriage is. I am all for it, but not before one is ready and willing to accept the responsibilities.

Suppose the financial responsibility of marriage rested on your shoulders. Just suppose you were expected, even compelled, to support this or any other man you married, not to mention any children that might come along. Would you be so eager to assume such responsibility? Wouldn't you prefer to wait until you could see some possibility of being able to discharge this obligation? I think you would.

Personally, I do not blame this or any other man for desiring clear of marriage until he feels confident as any human can feel about such matters. Even when the wife is self-supporting I feel that this same rule applies. A man naturally wants to be sure that he can do his part.

Since you see this young man, continue to be friendly and companionable. Give him to understand that you now realize that he is right and that you respect him for his control.

A Great Responsibility
Mrs. Martin will be glad to answer in this column questions of general interest. Mrs. Martin cannot reply individually to every correspondent. Names will not be published. Please address her care of this paper and use only one side when writing.

Modes and Manners
QUESTION: "When a man and woman are dining together, who should pour the coffee?"—V. G.

ANSWER: It is up to the host or hostess to pour. If the host takes the woman out to dine he pours. But when he visits at her home she pours.

QUESTION: "What expenses of a wedding does the bridegroom pay?"—Bride-to-Be

ANSWER: The bridegroom buys the ring and flowers for his bride. He may buy flowers for the bridesmaids. He pays the clergyman's fee. If the bridegroom wishes he may get small gifts for each of the ushers and the best man. The girl's parents, on the other hand, give the wedding and pay for the trousseau. They send out the invitations and take care of all the details.

QUESTION: "When a bowl of fruit is used for a centerpiece on a dinner table should it be passed after the meal?"—Lana G.

ANSWER: No. A fruit centerpiece is for decoration only.

A RIBBON CAKE

This cake, when made with care and skill, gives the effect of a multi-colored ribbon. The recipe is as follows: 3 cups sifted cake flour, 3 teaspoons double-acting baking powder, 2/3 cup butter or milk, 3 egg whites, stiffly beaten, 1/4 teaspoon cinnamon, 1/4 teaspoon cloves, 1/4 teaspoon mace, 1/4 teaspoon nutmeg, 1/4 tablespoon molasses, 1/3 cup finely cut raisins, 1/8 cup finely cut figs, together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy.

Add egg yolks and beat well. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Fold in egg whites. Fill two greased 9-inch layer pans with two-thirds of mixture. To remaining mixture, add spices, molasses, and fruit, and turn into one greased 9-inch layer pan. Arrange spice layer between light layers. Spread your favorite frosting between layers and on top and sides of cake.

REDS SCORED FOR TROUBLE ALONG COAST

(Continued from page 1)

Walter McGovern, yesterday obtained dismissal of conspiracy to commit murder charges made against Hunter by James O'Neill and Earl King, secretary of the Pacific Marine Firemen's Association. O'Neill, also arrested in the case, retracted previous statements and the charge collapsed.

"For months the waterfront of this city has been a battleground of conflicting interests," McNab said in a letter to Branton. He charged a group of extremists with wrecking all peace efforts.

STRIKE THREATENED

"Unless the criminal activities of these extremists are promptly curbed, San Francisco again will be in the grip of a paralyzing strike. Honest union labor is fighting for its life and for the preservation of the sacred rights of contract."

McNab's letter closely followed a brilliant statement by Hugh Gallagher, president of the Pacific American Shipowners Association commenting on the tieup of the S. S. Helen Walker at present in Honolulu.

"Refusal of the crew at the S. S. Helen Whittier to sail until Chief Engineer Wells was discharged is just one more example of the malicious attitude of some aboard Pacific American ships."

"It is a fact well known to all Pacific American operators that a planned campaign to utterly destroy discipline aboard ships has been under way for several months."

INSTALLMENT PLAN
Credit could be extended on virtually everything purchasable in Babylon at the time of the great Nebuchadnezzar. Loans could be repaid on the monthly installment plan and sometimes extended over a 10-year period.

"Various kings, from the great administrator Hammurabi, about 2,000 B.C., to the scholarly Ashurbanipal, 688-626 B.C., attempted to fix prices at low levels," Dr. Dubberstein explained.

"Their decrees and their list of prices show them attempting to create prosperity and a feeling of good will by announcing low official prices for staple commodities and at times setting wages for skilled and unskilled labor."

"Hammurabi even decreed the fee for surgical operations on man or beast."

Dr. Dubberstein has compiled price-charts for standard commodities in terms of shekels, for the period from 2000 to 425 B.C.

LEASES COMMON

"Fluctuations appear," he said "yet the general price trend is upward. There were even monthly variations in grain prices which reveal dependence upon the local supply and the season."

"Land renting and leasing was a profitable and extensive business. Short-time leases were common, though land might be leased for 60 years, almost comparable to our 99 year lease."

"In cities apparently few persons owned their living quarters but leased them for periods of a year or longer. Because of the inordinate value of wood in Babylonia, the houseowners rarely furnished the door for a brick home and insisted that the tenant keep up the repairs on the building."

OLD PEOPLE find way to keep breath wholesome

Halitosis (bad breath) quickly yields to Listerine, safe antiseptic and deodorant

Either because of stomach disorders, food fermentation, or the wearing of false teeth, old people frequently have halitosis (bad breath). A wonder which cures them is Listerine.

But now Science has found that the regular use of Listerine will often overcome offensive mouth odors due to the fermentation of tiny bits of food on mouth, teeth, or dental plate surfaces.

This safe antiseptic and quick deodorant works quickly. It cleanses mouth, teeth, and gum surfaces. Stops fermentation and putrefaction, a major cause of odors, and then counteracts the odors themselves.

Try using Listerine every two or three days. See how much more wholesome it leaves your mouth. How it sweetens your breath. Lambert Pharmaceutical Co., St. Louis, Mo.

It is spreading it."

Six guards saw Calles safely across the border. With him in the private plane were his son, Alfredo; Luis Morones former minister of agriculture, and Rafael Ortega, former governor of the State of Quanaquato.

LEAVES FOR L. A.

Calles planned to leave with his companions for Los Angeles. He may take a regular passenger plane but his associates urged him to charter a plane because of his weakened condition. He is recuperating from an attack of kidney.

Calles said the soldiers pulled him out of bed last night and told him he would have to get out of the country immediately.

"I told them," he said, "that I had no armed force with which to resist them and was entirely at their orders."

Calles said he protested to the soldiers that "he was innocent of the violence of which he was accused, but that they refused to listen. He said he presumed the expulsion order was given by President Laro Cardenas."

"Will you ever return to Mexico?" Calles was asked.

He shook his head.

Gen. Pershing's Driver Is Fined On Speed Charge

TURLOCK, April 10.—UP—General John J. Pershing's chauffeur, Crawford Schaeffer, was fined \$50 for speeding today and Police Judge Harry O. Carlson was aggravated because he couldn't make the penalty higher.

"This is the most irritating case in my experience on the bench," Judge Carlson commented after he had levied the maximum fine permissible for the offense under state laws.

"No other offender before me has ever shown such utter contempt for the law or for peace officers delegated to enforce it. I'm sorry \$50 is the maximum penalty I can extract," he said.

Schaeffer pleaded guilty to the speeding charge through the California state automobile association. He was arrested for driving 48 miles an hour through a 20 mile zone in the Turlock business section. He refused to stop for a citation and forced local officers to phone ahead and chase him 13 miles into Modesto before he finally was arrested.

Pershing was with him at the time of the arrest.

Schaeffer now is driving Pershing east after a brief trip to California.

NUDE BODY DISCOVERED IN BATHTUB

"Story" last August

BODY DISCOVERED
Two furniture men found the body when they brought in a couch that had been upholstered.

Detectives said there was no defense Mrs. Titterton had been attacked.

The furniture men, John Pienza and Theodore Kruger, said the body was found in the bathtub.

NEAR OTHER MURDER

The Titterton home, at 22 Beekman Place, is near where Vera Stretz recently killed Dr. Fritz Gebhardt in self defense. Katharine Cornell, the actress, lives across the street from the Titterton home.

Friends described Mrs. Titterton as a quiet, reserved person who rarely joined the conversation at social events. Until recently she had been writing under the name of Nancy Evans.

F. D. R. TAX BILL GETS HOUSE COT

(Continued from page 1)

NO ESTIMATE

He declined to estimate the loss in revenue that will result from these "exemptions" and "revisions." The bill, prior to changes made today, fell \$345,000,000 short of the amount President Roosevelt estimated would be needed over a period of three years to balance the ordinary budget and finance the bonus and farm programs.

The problem of caring for the corporation debt has been one of the most difficult to confront the Hill committee. Business and financial experts warned that the proposed graduated tax on undivided corporation profits would force some corporations into bankruptcy and would make it impossible for others to liquidate their indebtedness as rapidly as desired by banks and other creditors.

Bankers testified enactment of this provision would force them to re-examine all loans to industry to re-determine their soundness.

Today the sub-committee bowed to the demand for exemptions for debt-ridden corporations but first defined debt and the qualifications of exemption.

Charges Fly In Townsend Group

LOS ANGELES, April 10.—UP—Charges flew thick and fast tonight between regulars and insurgents in the Townsend old age movement with persons supposedly acting as spokesmen for Dr. P. E. Townsend and bluntly accusing holding groups of "hatching political plots."

In an article published in an organ of the party, it is charged a private detective was employed to further an asserted effort to wrest control of the movement from its founder.

The charges referred to a telegram sent from Washington to a local investigator urging the investigator to seek the resignation of Walter Townsend, brother of the old-age pension leader, now an employee in a hotel.

Frederic E. Stewart, member of the Board of Equalization for this district, has warned all retailers and holders of sales tax permits to be sure to send their sales tax direct to Sacramento and not to pay sales tax to any collector who may call upon them purporting to be a special collector from the board.

All employees and representatives of the State Board of Equalization carry with them identification that can be seen at all times.

This warning is given for the reason that it has come to the attention of the board, that men are seeking to collect sales tax from merchants, stating that they are special collectors sent to make such collections.
